

6. Family Weekend Update

Dear Families,

As we look to close out another week, we wish to reassure families we are still open for business next week, unless otherwise advised by the appropriate authorities. We would like to extend our thanks to all the parents and carers who have shared kind wishes and emails of support, they really bolster the morale of the staff. The unwavering professionalism of our staff throughout these challenging times needs to be acknowledged, given that they also have families that require care, assistance and support.

Thank you once again to all families who have kept children at home should they be unwell or susceptible during these interesting times.

On behalf of all, we would like to extend our gratitude and prayers to those members of the community who continue to work in the medical and health sector. You are doing a remarkable job and we remain indebted for these efforts. We simply could not be in better hands.

For those families who have been impacted directly in their working and financial capacity, please don't hesitate to contact the office should support be required over the coming weeks and months.

Below is a small snippet from the leadership team taken from our weekly staff bulletin.

We are so proud of the collective efforts of all during this period. From random acts of kindness, to 'calming words', we all continue to do our bit to maintain a sense of normality across our community. Whilst it has been an 'interesting' few days, your dedication and faultless commitment to the children and families has been simply remarkable and noted by many. We understand the daily uncertainty of staying open or closing has been unsettling for some, however, we can not thank you enough for fronting up to work each day and maintaining such a positive and reassuring mindset for our students and families. Please trust, our regard for you and your wellbeing has not been forgotten, but rather heightened during these tricky times. We remind all to check-in with a colleague or as a team and do not hesitate to seek out leadership when required i.e. be preventative and proactive.

Have a calm and happy weekend,

Simon, Sarah and Claire
