1. Introduction

At St Joseph's we hold the care, safety and wellbeing of children and young people as a central and fundamental responsibility of our school. Our commitment is drawn from and inherent in the teaching and mission of Jesus Christ, with love, justice and the sanctity of each human person at the heart of the gospel ([CECV Commitment Statement to Child Safety](#)).

The person of each individual human being, in his or her material and spiritual needs, is at the heart of Christ's teaching: that is why the promotion of the human person is the goal of the Catholic school (Congregation for Catholic Education 1997, n. 9).

At St. Joseph's the education and protection of our students is a community responsibility and we believe that *St Joseph's School finds its heart and its strength within the parish community* (school mission). Our students have the right to feel safe and protected by all who are connected to our school and we '*strive to develop a caring and respectful community that is considerate towards each other, other people and the environment*' (school vision).

The following commitment statement outlines our strategies to ensuring the safety of our students:

Upholding the primacy of the safety and wellbeing of children and young people:

- At all times, the ongoing safety and wellbeing of all children and young people at St. Joseph's will be the primary focus of care and decision-making, with particular attention paid to the cultural safety of Aboriginal and Torres Strait Islander children and children from culturally and/or linguistically diverse backgrounds, as well as the safety of children with a disability.
- To create and maintain a safe and nurturing culture, our school will actively and continually develop and review all policies, processes and practices, informed by emerging thinking and evidence.

Empowering families, children, young people and staff to have a voice and raise concerns:

- Our school, in partnership with families, will ensure children and young people, are engaged and active participants in decision-making processes, particularly those that have an impact on their safety.
- This means that the views of staff, children, young people and families are taken seriously and their concerns are addressed in a just and timely manner. Children and young people are also provided with the necessary skills and knowledge to understand and maintain their personal safety and wellbeing.

Implementing rigorous risk-management and employment practices:

- We will systematically and continually identify and assess risks to child safety and will eliminate (where possible) or reduce all potential sources of harm.

Effective risk management will be embedded in school life through effective, transparent and well-understood policies, procedures and practices.

- We will employ highly competent and professional staff who are formed and challenged to maintain the safety of all students. The high quality of staff appointments will be upheld through rigorous employment and staff review processes and practices.
- We will stay abreast of current legislation and will meet legislative duties to protect the safety and wellbeing of children and young people in our care, including the Victorian Child Safe Standards (Victorian Government 2016), mandatory reporting, grooming, failure to disclose and failure to protect requirements.

2. Purpose of the Policy

The purpose of this policy is to demonstrate the strong commitment of St Joseph's to the care, safety and wellbeing of all students at our school. It provides an outline of the policies, procedures and strategies developed to keep students safe from harm, including all forms of abuse in our school environment, on campus, online and in other locations provided by the school.

This policy takes into account relevant legislative requirements within the state of Victoria, including the specific requirements of the Victorian Child Safe Standards as set out in [Ministerial Order No. 870](#).

This policy applies to school staff, including school employees, volunteers, contractors and clergy.

3. Principles

At St Joseph's we have a moral, legal and mission-driven responsibility to create nurturing school environments where children and young people are respected, their voices are heard and they are safe and feel safe ([CECV Commitment Statement to Child Safety](#)).

The following principles underpin our commitment to child safety at St Joseph's:

All students deserve, as a fundamental right, safety and protection from all forms of abuse and neglect.

- Our school works in partnership with families and the community to ensure that they are engaged in decision-making processes, particularly those that have an impact on child safety and protection.
- All students have the right to a thorough and systematic education in all aspects of personal safety, in partnership with their parents/guardians/caregivers.
- All adults in our school, including teaching and non-teaching staff, clergy, volunteers, and contractors, have a responsibility to care for children and young

people, to positively promote their wellbeing and to protect them from any kind of harm or abuse.

- The policies, guidelines and codes of conduct for the care, wellbeing and protection of students are based on honest, respectful and trusting relationships between adults and children and young people.
- Policies and practices demonstrate compliance with legislative requirements and cooperation with the Church, governments, the police and human services agencies.
- All persons involved in situations where harm is suspected or disclosed must be treated with sensitivity, dignity and respect.
- Staff, clergy, volunteers, contractors, parents and students should feel free to raise concerns about child safety, knowing these will be taken seriously by school leadership.
- Appropriate confidentiality will be maintained, with information being provided to those who have a right or a need to be informed, either legally or pastorally.

4. Definitions used in this Policy

Child: A child or a young person enrolled as a student at the school.

Child abuse includes:

- (a) any act committed against a child involving:
 - (i) a sexual offence
 - (ii) an offence under section 49B(2) of the **Crimes Act 1958** (grooming)
- (b) the infliction, on a child, of:
 - (i) physical violence
 - (ii) serious emotional or psychological harm
- (c) serious neglect of a child. ([Ministerial Order No. 870](#))

Child safety encompasses matters related to protecting all children from child abuse, managing the risk of child abuse, providing support to a child at risk of child abuse, and responding to incidents or allegations of child abuse. ([Ministerial Order No. 870](#))

Child neglect includes a failure to provide the child with an adequate standard of nutrition, medical care, clothing, shelter or supervision to the extent that the health and physical development of the child is significantly impaired or placed at serious risk. ([PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#))

Child physical abuse: Generally, consists of any non-accidental infliction of physical violence on a child by any person. ([PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#))

Child sexual abuse is when a person uses power or authority over a child to involve them in sexual activity. It can include a wide range of sexual activity and does not always involve physical contact or force. ([PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#))

Emotional child abuse occurs when a child is repeatedly rejected, isolated or frightened by threats, or by witnessing family violence. ([PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#))

Grooming is when a person engages in predatory conduct to prepare a child for sexual activity at a later date. It can include communication and/or attempting to befriend or establish a relationship or other emotional connection with the child or their parent/carer. ([PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#))

Mandatory Reporting: The legal requirement under the *Children, Youth and Families Act 2005* (Vic.) to protect children from harm relating to physical and sexual abuse. The principal, teachers, medical practitioners and nurses at a school are mandatory reporters under this Act. ([PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#))

Reasonable Belief: When school staff are concerned about the safety and wellbeing of a child or young person, they must assess that concern to determine if a report should be made to the relevant agency. This process of considering all relevant information and observations is known as forming a 'reasonable belief'. A 'reasonable belief' or a 'belief on reasonable grounds' is not the same as having proof but is more than mere rumour or speculation. A 'reasonable belief' is formed if a reasonable person in the same position would have formed the belief on the same grounds. ([PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#))

School environment means any physical or virtual place made available or authorised by the school governing authority for use by a child during or outside school hours, including:

- (a) a campus of the school
- (b) online school environments (including email and intranet systems)
- (c) other locations provided by the school for a child's use (including, without limitation, locations used for school camps, sporting events, excursions, competitions, and other events). ([Ministerial Order No. 870](#))

School staff means an individual working in a school environment who is:

- (a) directly engaged or employed by a school governing authority
- (b) a volunteer or a contracted service provider (whether or not a body corporate or any other person is an intermediary)

- (c) a minister of religion. ([Ministerial Order No. 870](#))

5. Policy Commitments

- (d) We commit to providing opportunities for St Joseph's school employees, volunteers, contractors and clergy to receive formal debriefing and counselling arising from incidents of the abuse of a child or young person.

6. Responsibilities and Organisational Arrangements

Everyone employed or volunteering at St Joseph's has a responsibility to understand the important and specific role he/she plays individually and collectively to ensure that the wellbeing and safety of all students is at the forefront of all they do and every decision they make. ([CECV Commitment Statement to Child Safety](#))

The school has allocated roles and responsibilities for child safety as follows.

6.1 Guide to Responsibilities of School Leadership

The principal, the school governing authority and school leaders at St Joseph's recognise their particular responsibility to ensure the development of preventative and proactive strategies that promote a culture of openness, awareness of and shared responsibility for child safety. Responsibilities include:

- creating an environment for children and young people to be safe and to feel safe
- upholding high principles and standards for all staff, clergy, volunteers, and contractors
- promoting models of behaviour between adults and children and young people based on mutual respect and consideration
- ensuring thorough and rigorous practices are applied in the recruitment, screening and ongoing professional learning of staff
- ensuring that school personnel have regular and appropriate learning to develop their knowledge of, openness to and ability to address child safety matters

- providing regular opportunities to clarify and confirm legislative obligations, policy and procedures in relation to child and young people's protection and wellbeing
- ensuring the school meets the specific requirements of the **Victorian Child Safe Standards** as set out in [Ministerial Order No. 870](#).
- ensuring the school takes specific action to protect children from abuse in line with the three new criminal offences introduced under the Crimes Act 1958 (Vic.) and in line with the [PROTECT: Identifying and responding to all forms of abuse in Victorian schools](#).

6.2 Guide to Responsibilities of School Staff

Responsibilities of school staff (school employees, volunteers, contractors and clergy) include:

- treating children and young people with dignity and respect, acting with propriety, providing a duty of care, and protecting children and young people in their care
- following the legislative and internal school processes in the course of their work, if they form a reasonable belief that a child or young person has been or is being abused or neglected
- providing a physically and psychologically safe environment where the wellbeing of children and young people is nurtured
- undertaking regular training and education in order to understand their individual responsibilities in relation to child safety and the wellbeing of children and young people
- assisting children and young people to develop positive, responsible and caring attitudes and behaviours which recognise the rights of all people to be safe and free from abuse
- following the school's **Child Safety Code of Conduct**.

6.3 Organisational Arrangements

Overseeing the implementation of this policy will be the Principal of St. Joseph's, with the support of the Deputy Principal (Student Wellbeing Leader). It is the role of the Principal to ensure that the ethical imperative of keeping children safe is recognised, understood, valued, and upheld by all staff, volunteers, and community members within the school. To assist with implementation, monitoring and reviewing child safety matters, the Principal and Deputy Principal will work closely with the School Leadership Team, Student Intervention Team and the School Board. It is the specific role of the Principal and Deputy Principal to ensure that all staff are knowledgeable of their requirements in regards to Mandatory Reporting and that they are aware that all issues need to be handled sensitively and promptly.

General Staff meetings, Professional Learning Team meetings, Intervention Team Meetings, Leadership team meetings and the weekly staff bulletin are all avenues

that assist in the communication and dissemination of information that involves issues of child safety. It is the role of the Principal and Deputy Principal to assist members of the school community, who have concerns in regards to an individual student's safety, in reporting these concerns to the appropriate authority. The Principal and Deputy Principal will also be responsible for the reviewing of school procedures in order to gauge the effectiveness of the school in managing and revising St. Joseph's child safe strategies and to ensure that the policy is distributed to all members of the school community.

7. Expectation of our School Staff – Child Safety Code of Conduct

In St Joseph's community, we expect school employees, volunteers, contractors and clergy to proactively ensure the safety of students at all times and to take appropriate action if there are concerns about the safety of any child at the school. All school staff must remain familiar with the relevant laws, the code of conduct, and policies and procedures in relation to child protection and to comply with all requirements. We have developed a [Child Safety Code of Conduct](#), which recognises the critical role that school staff play in protecting the students in our care and establishes clear expectations of school employees, volunteers, contractors and clergy for appropriate behaviour with children in order to safeguard them against abuse and or neglect.

Our Code also protects school staff through clarification of acceptable and unacceptable behaviour.

8. Student Safety and Participation

At St. Joseph's we actively encourage all students to openly express their views and feel comfortable about giving voice to the things that are important to them. We regularly survey the students about their safety.

We teach students about what they can do if they feel unsafe and enable them to understand, identify, discuss and report on child safety. We listen to and act on any concerns students, or their parents or carers, raise with us.

To empower students in looking after their own safety, bodies such as the Student Representative Council (SRC) meet regularly with the Deputy Principal to voice concerns or forward suggestions that can make St. Joseph's a safer learning environment. Students can also directly approach the Principal, classroom teachers, specialist teachers, learning support officers, Deputy Principal, or administration officers, to seek advice or receive assistance. St. Joseph's also promotes a Child Safe School environment through effective curriculum development, and timetabling of, Social and Emotional Learning. We have a range of prevention programs, including, but not limited to, 'You Can Do It', 'Circle Time', 'The Daniel Morcombe Child Safety Curriculum' and 'Better Buddies', which supports the nurturing of student wellbeing

at St. Joseph's and also equips our students with understandings and strategies related to maintaining their personal safety. Intervention programs such as 'Seasons', 'Peaceful Kids' and the provision of OnPsych services ensure that students are able to access further social and emotional support, should it be required.

9. Reporting and Responding

St Joseph's records any child safety complaints, disclosures or breaches of the Child Safety Code of Conduct, and stores the records in accordance with security and privacy requirements. Our school complies with legal obligations that relate to managing the risk of child abuse under the *Children, Youth and Families Act 2005* (Vic.), the *Crimes Act 1958* (Vic.) and the recommendations of the [*Betrayal of Trust*](#) report.

Child protection reporting obligations fall under separate pieces of legislation with differing reporting requirements.

Our school's **Child Protection – Reporting Policy**, updated January 2020, sets out the actions required under the relevant legislation when there is a reasonable belief that a child at our school is in need of protection or a criminal offence has been committed, and provides guidance and procedures on how to make a report.

Our policy assists staff, volunteers and families to:

- identify the indicators of a child or young person who may be in need of protection
- understand how a 'reasonable belief' is formed
- make a report of a child or young person who may be in need of protection
- comply with mandatory reporting obligations under child protection law and their legal obligations relating to criminal child abuse and grooming under criminal law.

Our school has also established internal processes to ensure that appropriate action is taken to respond to concerns about the wellbeing and/or safety of a student.

Our school has also established internal processes to ensure that appropriate action is taken to respond to concerns about the wellbeing and/or safety of a student. St. Joseph's staff, in partnership with families, will ensure children and young people, are engaged and active participants in the decision making processes, particularly those that have an impact on their safety. This means that the views of staff, children, young people and families are taken seriously and their concerns are addressed in a just and timely manner. Children and young people are also provided with the necessary skills and knowledge to understand and maintain their personal safety and wellbeing.

To ensure all concerns, suspicions and allegations of harm to a child the Principal will:

- Appoint a **Child Safety Officer** (Student Wellbeing Leader) whose role is to receive all complaints made by staff, volunteers, parents or children
- Handle complaints in line with the existing **Child Protection – Reporting Obligations Policy**

Our complaints and disclosure processes are outlined and detailed in the following policies and procedures:

- Child Protection – Reporting Obligations Policy
- Grievance Policy and Procedures
- Privacy Policy
- Acceptable Behaviour Policy
- Engagement Policy – parent, Visitor & Volunteers
- Volunteer & Visitor Procedure Policy

All school staff who believe on reasonable grounds that a child or young person is in need of:

- Protection from physical harm or sexual abuse – must report their concerns to DHHS Child Protection
- Protection from harm that is not believed to involve physical harm or sexual abuse – are encouraged to report their concerns to DHHS Child Protection.
- Therapeutic treatment – are encouraged to report their concerns to DHHS Child Protection or Child FIRST.

Child Protection is the Victorian Government Agency, provided by the DHHS, that protects children at risk of significant harm. Child Protection has statutory powers and can use these to protect children.

Child FIRST is the Family Information Referral Support Team run by a registered community service in a local area that can receive confidential referrals about a child of concern. It does not have any statutory powers to protect a child but can refer matters to family services.

Mandatory reporters must report their concern to DHHS Child Protection if there is a reasonable belief that a child or young person is in need of protection from physical injury or sexual abuse.

It is essential to document the concerns and observations, which contributed to the suspicion that a child is in need of protection. This information may be gathered over a period of time and should be treated confidentially and held securely. It is recommended – **not, however, a requirement** – that concerns and observations regarding suspected physical injury or sexual abuse of a child are discussed with the principal or a senior school staff member and to ensure support is provided to all

involved in matters of this nature. The confidentiality of these discussions must be maintained.

If more than one mandated reporter has formed a belief about the same child on the same occasion, it is sufficient for one professional to make a report. The other is obliged to ensure the report has been made and that all grounds for their own belief were included in the report made by the other staff member.

If one mandated reporter directs another mandated reporter not to make a report, and the one professional **continues** to hold the belief that a child is in need of protection, then that professional is legally obliged to make a report to Child Protection.

The mandatory reporter may continue to suspect that a child is at risk and in need of protection. Any further observations should continue to be recorded and a report made on each separate occasion where a belief has been formed, on reasonable grounds, that a child is likely to be at risk and in need of protection. If there is any suspicion that this relates to a sexual offence involving an adult and a child under 16 then it must be reported to the police.

10. Screening and Recruitment of School Staff

St Joseph's will apply thorough and rigorous screening processes in the recruitment of employees and volunteers involved in child-connected work. Our commitment to child safety and our screening requirements are included in all advertisements for such employee, contractor and volunteer positions, and all applicants are provided with copies of the school's **Child Safety Code of Conduct** and the **Child Safety Policy**.

When recruiting and selecting employees, contractors and volunteers involved in child-connected work, we make all reasonable efforts to:

- confirm the applicant's Working with Children Check and National Police Check status and/or professional registration (as relevant)
- obtain proof of personal identity and any professional or other qualifications
- verify the applicant's history of work involving children
- obtain references that address the applicant's suitability for the job and working with children.

We have processes for monitoring and assessing the continuing suitability of school staff to work with children, including regular reviews of the status of Working with Children Checks and staff professional registration requirements such as Victorian Institute of Teaching (VIT) registration.

11. Child Safety – Education and Training for School Staff

St Joseph's provides employees, volunteers and clergy with regular and appropriate opportunities to develop their knowledge of, openness to and ability to address child safety matters. This includes induction, ongoing training and professional learning to ensure that everyone understands their professional and legal obligations and responsibilities, and the procedures for reporting suspicion of child abuse and neglect.

12. Risk Management

At St Joseph's we are committed to proactively and systematically identifying and assessing risks to student safety across our whole school environment, and reducing or eliminating (where possible) all potential sources of harm. We document, implement, monitor and periodically review our risk management strategies for child safety and ensure that the strategies change as needed and as new risks arise.

13. Relevant Legislation

- *Children, Youth and Families Act 2005* (Vic.)
- *Working with Children Act 2005* (Vic.)
- *Education and Training Reform Act 2006* (Vic.)
- *Equal Opportunity Act 2010* (Vic.)
- *Privacy Act 1988* (Cth)
- *Crimes Act 1958* (Vic.) – Three new criminal offences have been introduced under this Act:
 - a) **Failure to disclose offence:** Any adult who forms a reasonable belief that a sexual offence has been committed by an adult against a child under 16 has an obligation to report that information to police. Failure to disclose the information to police is a criminal offence.
 - b) **Failure to protect offence:** The offence will apply where there is a substantial risk that a child under the age of 16 under the care, supervision or authority of a relevant organisation will become a victim of a sexual offence committed by an adult associated with that organisation. A person in a position of authority in the organisation will commit the offence if they know of the risk of abuse and have the power or responsibility to reduce or remove the risk, but negligently fail to do so.
 - i) **Grooming offence:** This offence targets predatory conduct designed to facilitate later sexual activity with a child. Grooming can be conducted in person or online, for example via interaction through social media, web forums and emails.
